Dyslexia is a Specific Learning Difficulty

- A disability, which may initially show itself by difficulty in learning to read and later by erratic spelling.
- Dyslexia affects a minority of children who are exposed to the normal processes of education and who do not show backwardness in other subjects.

A dyslexic child/adult may have difficulties with

- Poor organisation
- Auditory or visual memory.
- Sequential ordering of letters and numbers.
- Left and Right directions.
- Reversal of certain letters or numbers.
- A history of late speech and language development.
- Poor co-ordination.
- Poor presentation of written work.
- Bizarre spelling.
- Slow speed of writing.

Can Dyslexia be helped?

Early diagnosis and dyslexia friendly schools will help to boost the child's moral and self-esteem making it easier to accept the difficulty. Specialist multisensory teaching may also be helpful.
